

Manerba

YOU-ECO

YOU-ECO = IO, TU, NOI
YOU-ECO = MENO NATURA SI USA, PIÙ NATURA RIMANE
YOU-ECO = PENSIERO SOTTILE
YOU-ECO = SEMPLICE E LEGGERO

YOU-ECO = ME, YOU, US

YOU-ECO = THE LESS NATURE WE USE, THE MORE NATURE REMAINS

YOU-ECO = THINK THIN

YOU-ECO = SIMPLE AND LIGHT

YOU-ECO rispetta la natura e ricerca la sostenibilità.

YOU-ECO sono io, sei tu, siamo noi.

YOU-ECO utilizza pannelli di legno provenienti da foreste a sviluppo controllato, garantendo il rispetto dei cicli biologici delle piante ed evitando l'indiscriminato sfruttamento boschivo.

La riduzione degli spessori dei pannelli è studiata per garantire una minore incidenza della componente “naturale” del mobile.

YOU-ECO è più leggero e sostenibile perché riduce l'impiego di materiali “pesanti” quali gambe e staffe.

YOU-ECO è l'ingegneria della semplificazione: le scrivanie si compongono di soli 4 elementi (piano, trave e 2 gambe) e 16 viti!

La riduzione delle componenti strutturali rende molto semplice il montaggio del prodotto.

La robustezza delle scrivanie è certificata a norma UNI con il massimo livello (livello 5).

La sicurezza è garantita dal superamento di tutti i test UNI-EN al massimo livello. Gli arredi risultano certificati e rispettano pienamente i requisiti richiesti dalla nuova norma europea UNI-EN 527-1/2011.

YOU-ECO utilizza imballaggi non contenenti PVC, costituiti da una percentuale in peso del 50% proveniente da materiali di riciclo.

Manerba è certificata ISO 14001 in materia di gestione ambientale del sistema di produzione.

YOU-ECO è garantito per 10 anni.
Che oggi sono un'eternità.

YOU-ECO respects nature and researches sustainability.

YOU-ECO is me, is you, is us.

YOU-ECO uses wood panels from controlled development forests, preserving plant life cycles and avoiding indiscriminate forest exploitation.

Panel thickness reduction is designed to achieve a lower incidence of "natural" cupboard components.

YOU-ECO is lighter and more sustainable, because it reduces the use of "heavy" materials, such as legs and brackets.

YOU-ECO is engineering made simple: desks with only 4 elements (top, beam and 2 legs) and 16 screws!

Reduced structural components to simplify product assembly.

Desk strength is certified to UNI standards at the highest level (level 5).

Safety is guaranteed by passing all UNI-EN tests at the highest level. Furnishings are certified and fully comply with the requirements of the new European standard UNI-EN 527-1/2011.

YOU-ECO uses packaging which does not contain PVC, with 50% by weight coming from recycled materials.

Manerba is certified ISO 14001 for the environmental management of its production system.

YOU-ECO is guaranteed for 10 years, which by today's standards represents an eternity.

LA BELLEZZA È FRONTE-RETRO

I tavoli tondi e quadrati possono essere utilizzati sia per le aree break, sia per piccole riunioni informali, dando la possibilità di creare un ambiente familiare e domestico.

BEAUTY IS DOUBLE-SIDED. The round and square tables can be used both for break areas and for small informal meetings, to create a domestic and family environment.

Il contenitore è utile anche per separare gli ambienti, grazie alle schiene a vista abbinare alle finiture degli arredi.

La consolle con gambe colorate indica la possibilità di personalizzare stilisticamente le aree di lavoro. Il tocco di colore offre al progettista uno stimolo alla sua fantasia.

The container is also useful to divide environments through the visible backs combined with the furniture finishes. The console with coloured legs indicates the possibility of stylistically customizing the work areas. The touch of colour offers designers a stimulus for their imagination.

SONO
REVERSIBILE,

SONO
TRASFORMABILE,

SONO
SMART!

L'ambiente di lavoro si trasforma in più configurazioni: Area attesa con divanetto Bague che denota un ambiente di tipo domestico. Area meeting con tavoli dai piani dalle dimensioni ampie e confortevoli. Zona “touch-down” con tavoli di appoggio altezza cm 110 per utilizzo notebook e tablet. Zona reception con i banconi Beautytouch Eco nelle nuove colorazioni in abbinamento agli uffici. I setti in vetro Wallsystem, grazie al minimalismo dei profili ed alla trasparenza dei vetri, creano riservatezza e delimitano gli ambienti all'interno di spazi aperti. La parete in vetro separa gli ambienti ma lascia luce e aria negli spazi.

I AM REVERSIBLE, I AM CONVERTIBLE, I AM SMART!
The working environment transforms into many configurations: Waiting area with Bague sofa to denote a domestic environment. Meeting area with tables offering large and comfortable size tops. “Touch-down” area with support tables height 110 cm for notebook and tablet use. Reception area with the Beautytouch Eco counters in the new colour combinations for offices. The Wallsystem glass partitions, through minimalism in the profiles and the transparency of glass, create privacy and delimit environments within open space areas. The glass wall divides the space but allows light and air to freely reach the environments.

SONO DECISIVO

Minimalismo ed essenzialità delle forme: con l'applicazione di pannellature laterali in legno e del modesty panel la scrivania si trasforma in direzionale. Le scrivanie direzionali hanno profondità maggiorata (cm 100). Area incontri e riunioni informali realizzata con tavoli satellite coordinati.

I AM DECISIVE. Minimalism and essential shapes: with the application of wood side panels and the modesty panel the desk becomes executive. The executive desks have larger tops (100 cm). Meeting and informal discussion areas are designed coordinated with satellite tables.

SONO BELLA COMODA

Poltrona collezione Vogue, con base metallica nelle nuove colorazioni esclusive Manerba (alluminio verniciato sabbia o bianco in abbinamento alle strutture delle scrivanie e alluminio finitura nero vintage).

I AM FINE & COMFORTABLE. Vogue collection armchair, with metal base in the new exclusive Manerba colours (Sand or white painted steel to match the desk structures and vintage black steel).

SONO ORDINATO

I AM ORDERLY

YOU

Coordinamento stilistico tra le parti strutturali degli arredi, delle poltrone e dei profili delle pareti in vetro (corretto abbinamento con cromatismi esclusivi). Nuovi concetti in tema di abbinamento cromatico tra le parti in metallo ed i piani in legno. Minimalismo e leggerezza della componente strutturale sia delle scrivanie sia delle pareti vetrate. Impiego di pannelli fonoassorbenti monomaterici, rivestiti in tessuto abbinato alle poltrone.

I AM FLEXIBLE. Stylistic coordination between the structural parts of furniture, armchairs and profiles of the glass walls (correct matching with exclusive colours). New concepts in terms of colour combination between the metal parts and the wooden tops. Minimalism and lightness of the structural component of both the desks and the glass walls. Use of single material sound-absorbing panels, coated in woven material, combined with the armchairs.

SONO COME TU MI VUOI

Il sistema è modulare e personalizzabile. Le dimensioni delle scrivanie permettono numerose possibilità e forme di aggregazione. La leggerezza della struttura YOU-ECO è esaltata da inedite ed esclusive colorazioni fluo di particolare impatto estetico.

I AM AS YOU WANT ME. The system is modular and can be customized. The modular sizes of the desks allow for numerous possibilities and types of combination. The lightness of the YOU-ECO structure is emphasized by original, exclusive fluorescent colours for a particular, eye-catching appearance.

SONO SILENZIOSO

Postazioni di lavoro con screen divisori fono-assorbenti che garantiscono la riduzione dei rumori che si producono in ambienti di lavoro open-space.

I AM DISCREET. Workstation with sound-absorbing panels ensuring a reduction in noise levels between adjacent environments.

SONO UN DETTAGLIO

I bench di lavoro ottimizzano l'utilizzo delle componenti strutturali (gambe intermedie condivise). La gamba intermedia è arretrata rispetto al filo esterno del piano scrivania. Questo accorgimento evita l'intralcio della gamba quando l'operatore si sposta con la sedia sotto la scrivania.

I AM A DETAIL. The work benches optimize the use of structural components (shared intermediate legs). The intermediate leg is set back from the outer edge of the desk top. This feature avoids any hindrance of leg movement when operators move on their chairs under the desk.

STUDIO LE PROPORZIONI

Il contenitore è nella stessa larghezza del bench (cm 163) in modo da creare il perfetto allineamento con la postazione di lavoro in testata. Il contenitore H cm 115 è allineato anche in altezza con la scrivania+screen.

I STUDY THE PROPORTIONS. The container has the same width as the bench (163 cm) so as to create perfect alignment with the work station in the header. The 115 cm high container is also aligned in height with the desk + screen.

IO SCHERMO

Screen in vetro extra-chiaro satinato o fumè. Gli screen in vetro donano eleganza e leggerezza alle postazioni di lavoro condivise. Minimalismo degli spessori (solo 1 cm)

ISCREEN. Screen in extra-clear frosted or smoked glass. The glass screens lend elegance and lightness to shared workstations. Minimalism in thicknesses (only 1 cm)

ZITTO MA VIVACE

Gli screen in tessuto garantiscono un buon livello di fonoassorbimento e, grazie alle numerose colorazioni disponibili, donano vivacità alla postazione di lavoro. Abbinabili come colori ai tessuti delle sedute.

QUIET BUT LIVELY. New and original system with various types of coating that covers the support panel in wood. The fabric screens ensure a good level of sound absorption and, through the many colours available, give vitality to the workstation. Colours to match seat fabrics.

IO RICICLO

Screen fonoassorbenti monomaterici rivestiti in tessuto, della collezione "Silence". Gli screen sono previsti in due altezze (cm 40 e cm 60). Elevati valori certificati di fonoassorbimento e resistenza al fuoco. Utilizzo di materiali riciclati e riciclabili a fine vita. Abbinabili come colori ai tessuti delle sedute.

I RECYCLE. Fabric covered, sound absorbing, single material screens from the "Silence" collection. The screens are available in two heights (40 cm and 60 cm). High certified values of sound absorption and fire resistance. Use of recycled materials which are again recyclable at end of life. Colours to match seat fabrics.

SONO
UNIONE

E
RIUNIONE

Il sistema strutturale YOU-ECO consente estese e variabili aggregazioni di tavoli. Perfetto abbinamento tra il colore delle gambe del tavolo e i contenitori. I tavoli riunione sono canalizzabili con sistemi top-access e ampi vassoi sottopiano per il contenimento di cavi e prese elettriche.

The YOU-ECO structural system allows extended and variable combinations of tables. Perfect matching between the colour of the table legs and the containers. The meeting tables can have ducts with top-access systems and wide under-top trays to house cables and electrical sockets.

* finitura valida solo per tavoli direzionali
finish available only for executive tables

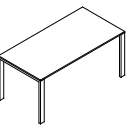

La finitura delle parti metalliche di scrivanie e tavoli viene indicata con estensione del codice (es.: .W .GA .A1). Vedi sigle della tabella dei metalli.
The finish of the metal frame of desks and tables is indicated by extension of the code (ex.: .W .GA .A1). See the table abbreviations of the metals.

I colori della palette sono tanto accurati quanto consentito dal processo di stampa del presente catalogo. Pertanto sono da ritenersi puramente indicativi.
Le colorazioni possono presentare leggere differenze cromatiche, di opacità e di finitura a seconda del tipo di superficie e del materiale su cui sono applicate.

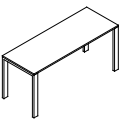

Color samples are only an indication: colors may change due to the printing process.
A slight difference in colour may occur, in opacity and finish, depending on the type of surface and material the finish is applied to.
